› *Wascomat Generation 7: What's New*

For almost 60 years, Wascomat has been building top-notch, heavy-duty self service and on premise washers and dryers. Not only are Wascomat products built to last, they are also built with simplicity of use, ease of service, and energy conservation in mind. Wascomat's Generation 6 line was already outstanding, but now they've introduced their Generation 7 series which has even more features. See what's new with Wascomat's Generation 7 line below.

Wascomat On Premise Laundry and Self Service Washers

- › Vented soap box prevents mold
- › Sturdy door handle
- › Straightforward error descriptions with date and time
- › Easy access USB
- › Faster rebalance feature
- › Energy Star Rated Soft Mounts up to 45 lb.
- › Clock display

Wascomat On Premise Laundry and Self Service Dryers

- › Versatile Compass Pro micro control
- › Industry leading lint screen design
- › Clock display
- › Revamped door handle and seal
- › Single pocket dryers are 12% faster with Axial airflow and consume up 25% less energy

Further Self Service Features

- One knob controls program selection, diagnostics as well as programming
- 55 preprogrammed formulas
- Compass Pro allows for 15 custom programs
- Hidden USB in the coin box area for safety
- Multiple time of day pricing features
- Bigger, stronger coin box
- Compass Pro provides detailed user stats
