

Industrial/Commercial Evaporative Coolers Specificaion Guide

SPECIFICATION GUIDE FOR MODELS:

SAS/SAD 100

AS/AD 150

SAS/SAD 150

AS/AD/AU 20012

Advantage Points

- 1. CONSTRUCTION** Heavy gauge galvanized steel is used for cabinet panels and other load bearing components. Vacuum-formed ABS plastic water reservoirs and thick polystyrene evaporative media shields keep water from coming into contact with the steel cabinet for long-lasting durability.
- 2. EVAPORATIVE MEDIA** The cellulose paper of the evaporative media is treated to ensure a high water absorption rate and to resist biological degradation.
- 3. FINISH** All steel components (excluding the blower wheel, shaft, and pulley) are chemically treated and covered with an electrostatically-applied polyester finish at a thickness of 1 to 1.5 mil to protect the cooler from scratches and corrosion. This finish meets or exceeds requirements for the following tests:

- 1000-Hour Salt Spray Test-ASTM B117
- Abrasion Resistance Test-ASTM 4060-84
- Impact Resistance Test-ASTM D2794
- 2400-Hour Immersion Test-ASTM D870
- Adhesion Test-ASTM D3359

MODULAR CONFIGURATIONS

The unique modular design of the dual inlet side- and down-draft models are easy to reconfigure for difficult or customized installations.

Double Inlet Configuration

Single Inlet Configuration

The Smart Choice for Water Chillers, Cooling Towers and Evaporative Air Coolers

KR PRODUCTS certifies that the evaporative air coolers shown here are licensed to bear certifies that the evaporative air coolers shown here are licensed to bear the AMCA seal. The ratings shown are based on tests and procedures performed in accordance with AMCA Publication 211 and comply with the requirements of the Certified Ratings Program.

Limited Warranty

This warranty is extended to the original purchaser of an evaporative cooler installed and used under normal conditions. It does not cover damages incurred from accident, neglect, or abuse by the owner. Champion Cooler does not authorize any person or representative to assume for the Corporation any other or different liability in connection with the product.

Terms & Conditions of Warranty

This warranty includes lifetime limited coverage on water reservoir against any leakage due to defects in material. From date of installation, if any original component part provided by Champion Cooler fails due to defect in material or factory workmanship only, Champion Cooler will provide the replacement parts as follows:

- Cabinet components for one year from date of installation
- Evaporative media for two years from date of installation.

Exclusions to this Warranty

- Champion Cooler is not responsible for any incidental or consequential damage resulting from any malfunction.
- Champion Coolers is not responsible for any damage received from the use of water softeners, chemicals, descaling material, plastic wrap, or if a motor of a higher horsepower than what is shown on the serial plate is used in the unit.
- Champion Cooler is not responsible for the cost of service call to diagnose cause of trouble, or labor charger to repair and/or replace parts.
